Coated with fur : a vet's life (Book, 2010) [WorldCat.org]

A double coated dog is a dog with two layers of fur. Nature has given it this coat as a protective measure from extreme climates. This kind of coat is especially seen in mountain dogs as a protection measure against harsh climate. The double coated dog has two coats, one is the top guard coat and the other one is the underneath undercoat.

5 Reasons Why Shaving Double Coated Dogs Is Harmful ...

These coats can shed quite a lot, and regular brushing minimizes little fur balls around your home. A Furminator works quite well with these coats to pull out any loose undercoat fur. When furminating your dog's coat, make sure their coat is completely dry and don't brush too hard or for too long as it can irritate their skin.
