In Figure 3.14, we can see that, in graph of the equation $y = 2x - 3$, $y = 2x - 3$, for every x -value there is only one y -value, as shown in the accompanying table. Figure 3.14 A relation is a function if every element of the domain has exactly one value in the range.

3.6 Graphs of Functions - Intermediate Algebra 2e | OpenStax

Intermediate Algebra 2e is designed to meet the scope and sequence requirements of a one-semester intermediate algebra course. The book's organization makes it easy to adapt to a variety of course syllabi. The text expands on the fundamental concepts of algebra while addressing the needs of students with diverse backgrounds and learning styles.
