The KN-53 is a modern King NAV Receiver that matches the rest of your King radio stack. This version of the KN-53 does not contain an internal Glideslope Receiver. (If needed, please see the KN-53 with Glideslope.) This quality unit features 200 NAV channel capability, and the standard easy-to-read King gas discharge display.

KN-53 NAV Receiver - Bennett Avionics

The KN-53 is a modern King NAV Receiver that matches the rest of your King radio stack. This version of the KN-53 does contain an internal Glideslope Receiver. (If you do not need Glideslope, please see the KN-53 without Glideslope.) This quality unit features 200 NAV channel capability, and the standard easy-to-read King gas discharge display.

KN-53 NAV Receiver with Glideslope - Bennett Avionics

The radios (w/o bezels) install from the rear of the assembly. Therefore, CNI5000 versions of the Silver Crown product line (i.e. KN-53 -04, KT-70 -1101, KT-71 -6101, KY-196A -50, KY-196B -0201) do not have a bezel so that the radios can be installed in a stand alone installation. Furthermore, the CNI5000 radios have 5 volt lighting.

The force value 53 kN (kilonewton) in words is "fifty-three kN (kilonewton)". This is simple to use online converter of weights and measures. Simply select the input unit, enter the value and click "Convert" button. The value will be converted to all other units of the actual measure.

Convert force: 53 kN (kilonewton) to ...

I don't have a manual with me, but I can tell you that the KN53 does not use an LCD display. It is a gas-discharge display that only Bendix/King dealers can get from the manufacturer. Replacing them is not that complicated, although there are some very fragile contacts that support that display. What is your display doing exactly?
