Most ebook files open on your computer using a program you already have installed, but with your smartphone, you have to have a specific e-reader app installed, which your phone probably doesn't come with by default. You can use an e-reader app on your computer, too, to make reading and organizing your ebooks easy.

semester, first year graduate level course offered at the University of Notre Dame on mathematical methods in chemical engineering. An unusual characteristic of the course is that the lectures are given on transparencies shown by an overhead projector, the students receiving printed copies of the transparencies.

For basic courses
(material balances) you
need strong linear
algebra skills. That
said, this math is more
like accounting- not
technically challenging
in concept but tedious.
I do not think it is the
best subject to focus
