Merchants of Doubt: How a Handful of Scientists Obscured the Truth on Issues from Tobacco Smoke to Climate Change Paperback – May 31, 2011 by Naomi Oreskes (Author)

Merchants of Doubt: How a Handful of Scientists Obscured ...

In their new book, Merchants of Doubt, historians Naomi Oreskes and Erik Conway explain how a loose-knit group of high-level scientists, with extensive political connections, ran effective campaigns to mislead the public and deny well-established scientific knowledge over four decades. In seven compelling chapters addressing tobacco, acid rain, the ozone hole, global warming, and DDT, Oreskes and Conway roll back the rug on this dark corner of the American scientific community, showing how ...

Merchants of Doubt - How a Handful of Scientists Obscured ...

"Merchants of Doubt should finally put to rest the question of whether the science of climate change is settled. It is, and we ignore this message at our peril" —Elizabeth Kolbert "If you read just one book on climate change this year, read Merchants of Doubt. And if you have time to read two, reread Merchants of Doubt." - Grist

Merchants of Doubt: How a Handful of Scientists Obscured ...

"Merchants of Doubt: How a Handful of Scientists Obscured the Truth on Issues from Tobacco Smoke to Global Warming" (Bloomsbury Press) examines the growth of 'junk science' from its creation to its implementation in a thoroughly detailed and fact-filled expose of the continuing pattern of industry to (often secretly) fund high-level, scientific studies to 'disprove' established research on the negative effects of harmful products.

Merchants of Doubt: How a Handful of Scientists Obscured ...

About Merchants of Doubt. Featuring a new Foreword by former Vice President Al Gore Finalist for the Los Angeles Times Book Prize "Important and timely. We ignore this message at our peril."-Elizabeth Kolbert Merchants of Doubt has been praised-and attacked-around the world, for reasons

Merchants of Doubt: How a Handful of Scientists Obscured ...

Merchants of Doubt is a nonfiction account of how a loose-knit group of scientists—Fred Seitz, Fred Singer, Bill Nierenberg, and Robert Jastrow—with similar political agendas worked to prevent government regulation by creating the appearance of scientific debate on several topics. These topics included smoking (both first- and secondhand hand smoke), acid rain, Regan’s Star Wars (or Strategic Defense Initiative), the ozone hole, global warming, and the use of pesticides, specifically DDT.

Merchants of Doubt (film) - Wikipedia

"Merchants of Doubt, by the science historian Naomi Oreskes and the writer Erik Conway, investigates a sort of reverse conspiracy theory: ecoterrorists and socialists are not the ones foisting dubious science upon us; rather it is deniers who are running their own well-funded and organized long-term hoax. Several previous works have ably illuminated similar themes, but this one hits bone...[Merchants of Doubt] provide[s] both the historical perspective and the current political insights ...

Merchants of Doubt || A Sony Pictures Classics Release

Merchants of Doubt lays out this argument in exacting detail, going through each of these scientific issues, providing the support for why science (and 90+% of scientists) provide the support that it is true, and laying out the case that there is a dedicated group of people - a group of people that seem to show up in every one of these arguments - that confuse the issues rather than enlighten them.
