customers. Many of the features have been introduced at specific requests from some of you. Others are still at preparatory stage and will be implemented soon.

Minimal Ethics For The Anthropocene

Even though Minimal Ethics for the Anthropocene is first and foremost concerned with life—understood as both a biological and social phenomenon—it is the narrative about the impending death of the human population (i.e., about the extinction of the human species), that provides a context for its argument. “Anthropocene” names a geo-historical period in which humans are said to have become the biggest threat to life on earth.

philosophy, and especially of the relationship between ethics and politics.

Minimal Ethics for the Anthropocene - University of Michigan

Minimal ethics is therefore less a solution and more a proposition— a proposition to put up the question of ethics on the current agenda, alongside other, seemingly more pressing and global issues such sustainability, climate change, fossil fuel crisis, human survival, etc. Unless we are prepared to do this, and to position ethics itself as a particularly pressing issue for the Anthropocene, we run the danger of falling prey either to anthropocentric moralism (where values are being laid ...

Zylinska, Topia daedala 3, 2014. The minimal ethics posited in this book needs to be thought on a universal scale. This may sound like a paradox, yet it will only seem so if we rush ahead of ourselves and expect such ethics to furnish us with some generally applicable principles that will have to remain valid across all times and locales.

Where To Download Minimal Ethics For The Anthropocene Critical Climate Change

composition, *Minimal Ethics for the Anthropocene* (2014) by Joanna Zylińska is a short, original, and elegant book, the aim of which, as the author emphasizes, is to "tell a different story about the world and our human positioning in and with it, while taking seriously what science has to say about life and death ...

Minimal Ethics for the Anthropocene by Joanna Zylińska

...

This account of *Minimal Ethics in the Anthropocene* is a particular set of cuts made into the fabric of the text. There is a lot to think about in this brief book. I have not touched on Zylińska's account of life and death in the Anthropocene but could imagine a rich engagement with this discourse in epideictic rhetoric.
