PlateSpin Migrate 9.2. 3.4 MB. 09/27/2012 Nur Englisch. PlateSpin Migrate is a workload portability solution that automates the movement of server workloads-operating systems along with their applications and data-over the network between physical servers, virtual hosts and image archives. PlateSpin Migrate remotely decouples workloads from the underlying server hardware and streams them to and from physical or virtual hosts, all from a single point of control.

Novell Doc: Platespin Migrate 9 - Table of Contents

PlateSpin Migrate supports MBR (Master Boot Record) and GPT (GUID Partition Table) partitioning schemes for Windows and Linux workloads. Workloads and storage for migration must be configured on disks partitioned with the MBR or GPT. Although GPT allows up to 128 partitions per single disk, PlateSpin Migrate supports only 57 or fewer GPT ...

Novell Platespin Migrate for Dell

From: User Guide - PlateSpin Migrate 9.1 (April 20,2012) "PlateSpin Migrate licenses are sold on a per-workload basis (doesn't matter how many PlateSpin Migrate servers you have.) A license entitles you to an unlimited number of migrations on a specific number of workloads. With every migration, a workload unit of the license is assigned to either the source or target.

Platespin Migrate Notes (Latest Version 9.1)

PlateSpin Migrate is a versatile tool that helps you convert workloads and simplify the P2V process. Physical to virtual, virtual to image, image to physical -- you name it, PlateSpin Migrate migrates it. You can use this product to migrate a physical Windows server to a virtual environment, no matter which virtualization platform you are using.

Performing Windows P2V conversion with Platespin Migrate

I was wondering if someone had some experience with the Synce Function of Platespin Migrate 9 and could offer some advice. We would like to: 1. P2V a Windows server on Monday. 2. Launch data syncs for X number of days between the source still live & running and the target VM. 3. Do a final sync and cutover. Is this possible with Platespin ...
